

B4
Contd.

burstable hood at the head of the projectile. When the compartments (4, 5) break open the components combine and undergo a chemical reaction which creates an optical mark. The hood is formed of an optically transparent material to enable the trajectory of the projectile to be tracked.

ADDITIONAL FEE

Please charge any insufficiency of fee, or credit any excess, to Deposit Account No. 50-0427.

R E M A R K S

The Office Action issued October 8, 2002 has been received and its contents have been carefully considered.

Applicant has deleted the reference numerals 10 and 12 from the Abstract, so that their insertion in Figs. 1 or 2 is not required.

The specification has been amended on page 5 to include some mention of the reference numeral 11, which is shown in Fig. 1.

Claims 8 and 11 have been amended slightly, to place them in idiomatic English.
